

DeBa Silk&Comfort Care
Depilatory cream for normal skin

USAGE:

Read carefully the instructions before usage of the product!

1. Apply directly over the skin with the spatula. Spread the cream and form an equal layer over the skin and make sure to cover the treated place completely.
2. Leave the cream for 3 minutes and after that use the upper side of the spatula to test a small place.
3. If the unwanted hair is being removed easily, remove the rest of the cream with the spatula.
4. Leave the cream, if necessary but not more that 6 minutes after being applied.
5. Rinse thoroughly with water after removing the cream and dry the skin.

Attention:

ALWAYS FOLLOW THE INSTRUCTIONS FOR USE!

- Contains thioglycolate.
- The product can be used for hair removing of legs, underarms, the bikini zone and other parts of the body except the face, scalp, breasts and genital areas.
- Do not use on harmed, irritated, and sunburnt skin, on spots or moles. Do not apply the product at least 72 hours after shaving or depilation, as well as on skin that has suffered an adverse reaction to hair removal creams in the past.
- Consult your doctor before using the product in case you are exposed to a medicine treatment that may affect your skin especially when you suffer from skin diseases.
- Before usage test the sustainability of the skin as applying a small quantity from the product on part of your body that can be treated as following the instructions for use. If after 24 hours is no allergic reaction, continue the usage.
- If you feel burning, itching or other complaint during the usage remove the cream from your skin immediately and rinse thoroughly with water. If this sensation persists seek medical advice.
- We recommend you to wait 24 hours after use before applying products containing alcohol as body spray, perfumed and other anti-perspirant products. Sun exposure is also not recommended.
- Always allow 72 hours between applications.
- Do not use immediately after a hot bath or shower.
- In case of swallowing contact immediately a doctor showing him/her the packaging
- Avoid contact with eyes.
- Keep out of reach of children!
- In case of contact with eyes rinse thoroughly with water and seek medical advice.
